program of the National Teen-Ager Pageant. This program encourages teenagers to participate in school and civic affairs. A Mini-Modeling Charm Course is taught during the pageant. Contestants will be judged on scholastic achievement leader-

ship; poise-personality and

appearance. There is no swimsuit competition. Talent may be presented at the option of the participant or an oral essay on the subject "What's Right With America?"

Miss Buys is being sponsored by Wave Publishing, Richfield Reaper, Big O Tires, Tolin Medical Supply, and Zions Bank. Her hobbies include dancing, singing, snow skiing, sail planing and kayaking.

County to Hold Public Weed Meeting

A general information and planning meeting on the weed problems and situation will be held on Tuesday, April 16 at 1 p.m. in the Wasatch County Courthouse at 25 North Main, Heber City.

The meeting will be geared to any land owner who is concerned about weed problems on or near his land.

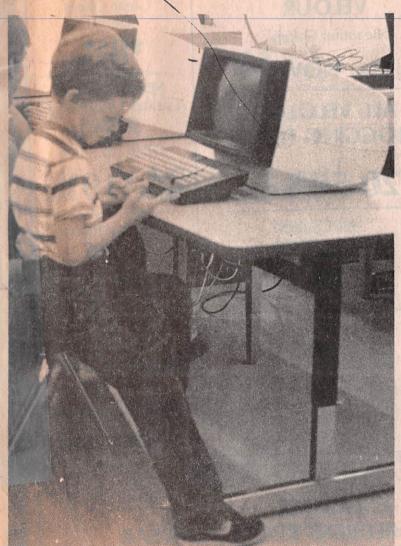

At the meeting the State Department of Agriculture will update us on the Weed Law and

what our responsibility is to control Noxious Weeds. Dick Jones, County Weed Supervisor, will talk about the current weed problems and situations in the County and Val Warnick will give information on the chemicals and the cost to control these weeds.

The Soil Conservation District will lead a group discussion on what the County, landowners and public can do about certain weed problems in the County.

Get Shot at Computer

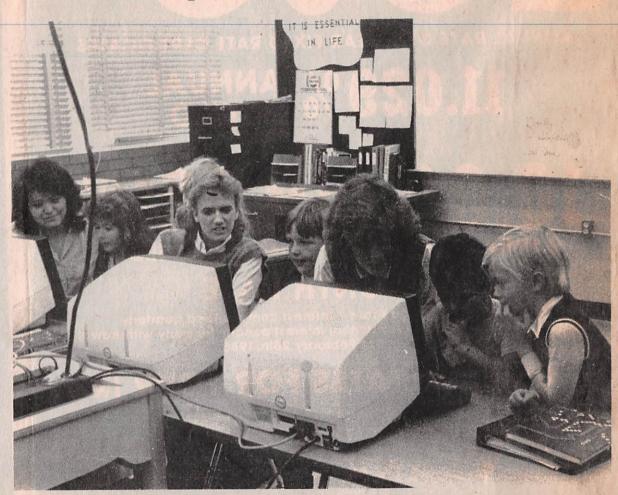

This youngster from Central School sits at a computer and works out the problems designed by high school students.

Wasatch High School (LRJ) On Feb. 19, First and Second Grade students from Central Elementary School "proved" the computer programs written by high school students at Wasatch.

The classes of Mesdames Cummings, Morgan, VanWagoner, Nelson and Holmes attended Mrs. Sherry Horner's Data Processing Classes and gave her students a chance to work out their math programs with real subjects.

"It is very interesting to see high school students kneel down by a younger student and their machines to help them through the stages of their math tutorial programs," said Mrs. Horner. The 6-7 year olds will prove if the program can be understood and followed by someone besides their originators. The primary school children should be able to learn addition and subtraction from the various programs. The indiviaul programs, written by the high school students, will be tested throughout the day by some 140 youngsters.

A previous introduction to computer programs was made earlier in the school year to another group of 3rd and 4th graders who tested out programs in social studies. The twenty machines using Basic Language, proved their worth then-just as they will prove the abilities of students to use them now.

High school computer students look on as elementary children try their hardest at figuring out the computer problems designed for them to compute.

Lord with Sources have they could control to the co

English Department Chooses Sterling Scholar of Senator Hatch's Youth Advisory Committee, and is lettered in soccer and football. Paul has had a hand in heading up many fine projects while attending school in the East and at Wasatch has continued his leadership tradition by being in charge of Homecoming, Senior Ball decorations and music, and Festival of Trees. Two school assemblies have been under his direction and he

Paul W. Ritchie

Paul W. Ritchie, this year's senior class president at Wasatch High School, has been chosen by the English Department as its Sterling Scholar. He returned to Heber City two years ago. Before that he had been living in Virginia and California. He is the son of James and Carolyn Ritchie, of Heber City, and lives at home with them and his three brothers and four sisters. He is the fifth of eight, a spot that has helped him learn to get along with people as well as to be a leader. Paul is an honest and hardworking individual who has had many opportunities for leadership.

He was studentbody president in his junior high school and was his sophomore class president. His interest in skiing helped him become the Ski Club president. He is listed among Who's Who For American High School Students, is a member has obtained speakers for them. Many other school activities have received his attention and direction.

School subjects have qualified Paul. He has taken AP courses in English, has participated in speech and debate and journalism, and has been a staff writer for the school newspaper. Other participation has been in FBLA, Science Club, and Sound Investment.

For the community, Paul has been a sportswriter for the local paper and has been involved in Eagle Scout projects. In his church, he has held leadership and service positions. While in the East, he maintained the five-acre Mission home yard for three years. This young man has chosen to spend much of his time in helping to get things done. Presently, he delivers the newspaper to homes in the valley from 1 a.m. to 3 a.m. each morning. In the summer, he will be working in construction.

Paul wants what most people want - marriage and a family. But, before that, he plans a mission for his church, attendance at BYU, a major in communications, an MBA, and a career in sales - perhaps in the East. There is no reason why this young man won't get the things he wants. He has drive!
